

# WASHINGTON POLICY CENTER

The number one benefit in joining the Pillar Society—at any giving level—is the powerful, lasting change you make possible for the people of Washington through bold, free-market solutions that improve lives and expand opportunity.

"We joined the Pillar Society because we wanted to support WPC and its efforts in a meaningful way. What a nice side benefit to be connected to accomplished, proven people who are also aiming to create more opportunity in our state and champion free markets."
