

Key Facts about Pasco Public Schools January 2011

New research released by Washington Policy Center, a non-partisan public policy research think tank based in Seattle, provides key facts for the Pasco School District. Education budgets in Washington State are at historic highs, reaching \$10,200 per student statewide. Average teacher pay with benefits in Pasco is \$73,962 for a ten-month work year. Fifty three Pasco public school employees receive more than \$100,000 a year.

Yet, because of restrictive work rules and multi-layered bureaucracy, only 59 cents of every education dollar reaches the classroom and public school students continue to lag in academic achievement. The research shows that more money won't help public schools, and that policymakers can improve student learning with existing funding. Practical ideas for reform are available in the Center's study, "Eight Practical Ways to Reverse the Decline of Public Schools."
